WORKSHOP ON NUMERICAL ALGORITHMS ON HYBRID ARCHITECTURES

Warsaw, Poland, September 8-11, 2013

The workshop will be held in conjunction with the 10th International Conference on Parallel Processing and Applied Mathematics PPAM 2013 in Warsaw, Poland, on September 8-11, 2013.

The workshop is devoted to numerical algorithms with the particular attention to issues related to implementation of libraries for efficient numerical algorithms on modern hybrid architectures.

Suggested topics include, but are not limited to:
- large scale numerical computations on GPU clusters
- numerical algorithms on hybrid CPU+GPU architectures
- novel data formats for dense and sparse matrices
- linear algebra computations on modern computer architectures

A limited number of contributed, 20 minute talks will be selected for this workshop. Full papers prepared according to the rules of the Springer LNCS and PPAM 2013 Conference should be submitted (see http://ppam.pl/submission). They should be no longer than 10 pages. Please send them by April 21, 2013. Each paper will be evaluated by three reviewers.

Important dates:
Submission of Papers: May 12, 2013
Notification of Acceptance: June 15, 2013
Camera-Ready Papers: Nov. 15, 2013

Minisymposium organizers:
Jerzy Wasniewski
Danish Technical University
Lyngby, Copenhagen, Denmark
e-mail: jw@imm.dtu.dk

Przemyslaw Stpiczynski
Maria Curie-Sklodowska University
Lublin, Poland
e-mail: przem@hektor.umcs.lublin.pl

International Program Committee (preliminary list):
Luigi Brugnano, Universita' di Firenze
Beata Bylina, Maria Curie-Sklodowska University, Poland
Jaroslaw Bylina, Maria Curie-Sklodowska University, Poland
Domingo Gimenez, Universidad de Murcia
George A. Gravvanis, Democritus University of Thrace
Juan Ruiz de Miras, University of Jaén
Fengguang Song, Samsung Research America
